Work Experience

○ **2022 - 2024**
Singularity Istocno Sarajevo

Full Stack Software Developer

During my time at Singularity.is, I contributed to several high-profile projects that required strong problem-solving skills, attention to detail, and the ability to work collaboratively with cross-functional teams. For example, I was instrumental in developing a real-time chat application using React, Node.js, and Socket.io that allowed users to communicate with each other seamlessly.

○ **2023 - 2024**
Freelance on Fiverr and Upwork

Full Stack Web Developer

As a freelance full-stack web developer on Fiverr, I successfully collaborated with diverse clients to deliver tailored web solutions. Proficient in both front-end and back-end development, I designed and implemented responsive, user-friendly websites that met the unique requirements of each project. My responsibilities included understanding client needs, proposing technical solutions, and delivering high-quality code within specified timelines. I honed my skills in problem-solving, communication, and adaptability while managing multiple projects simultaneously. This experience not only expanded my technical expertise but also enhanced my ability to thrive in a dynamic and client-centric environment.
